SOUTH PARIS

Republican Meeting

A preliminary campaign meeting of Republicans for Oxford County was held at the court house Thursday afternoon, July 17 attended by sixty men and women, members of party committees and others. Col. Albert J. Stearns of Norway, State Committee member for Oxford County, presided and the principal talk was given by Hon. George L. Emery, chairman of the State Committee. Mr. Emery described himself as an old fashioned practical politician, and the speaker would be better off if it had more practical politicians. He urged organization with emphasis, and stressed the need of a large vote in September in behalf of its effect upon the election of Calvin Coolidge as president.

Mrs. Eva L. Mason of Dover-Foxcroft, vice-chairman of the Republican State Committee, spoke briefly about practical lines, urging full and thorough organization of the women for the campaign, with a house-to-house canvass.

Others who spoke briefly were Miss Jeannie Hubbs of Paris, woman member of the State Committee for Oxford County, Donald B. Partridge of Norway, Hon. H. H. Hastings of Bethel, Hugh W. Hastings of Fryeburg, Erland C. Torrey of Dixfield, Hon. A. E. Stearns of Rumford.

Congressman Wallace H. White thought it had been the understanding that he was not to be called on, he yielded to the insistent call, and spoke briefly.

Things went lively about the village Saturday when the annual Dollar Day was observed by the merchants. Sharp mark-downs and generous discounts attracted steady business from an early hour, with the stores' help actively engaged during the day.

The free dance in the evening on the cement road brought into town at least two thousand people. Music was furnished by the Norway-Paris Band, Frank P. Knapp leader, and they provided the real article for country or modern steps. "Judge" L. L. Briggs, the sage of Elm Hill was prompter with Charles W. Bowker, "road" manager and utility man about the square.

The fun lasted until 10:15. Despite the outside attractions the merchants report a heavy business during the concert and dancing.

Lenwood B. Durepo and Miss Margaret Davis, both of South Paris, were united in marriage at the Congregational church early Saturday morning, July 19. Rev. Fred Banister, the officiating clergyman, used the double ring service. The attendants were the bride's brother and wife, Mr. and Mrs. Clifford H. Davis, and the groom's brother, Levi G. Durepo.

BASEBALL

Twin Towns 11—Monarchs 3
The Cleveland Giants supposed to appear here Saturday afternoon, suddenly changed to the Boston Monarchs, a color outfit, hitting between Montreal and the Metropolitans.

The versatile manager and announced the team having an off day and no fan could doubt that something was not according to Hoyle.

Everything broke nicely for the colored team during their first whack and they won the game by a score of 11 to 3.

In the second session Jackman, the Monarch leader, proved a cyclone and hit two; the last being Whitney Jackson, the Twin's third sacker, who received a ball over the heart. He fell unconscious and several players worked over him number of minutes. "Jack" player returned to the game but was not in good form.

After this weird exhibition the erratic bomber from Boston was yanked and McDonald went the distance. The new hurler had a flashy side step delivery which was less dangerous as a hurler.

Paynter occupied the box for the Twins and performed nicely against the hard hitting Monarchs. He held the sluggers to a pair of doubles and seven singles.

Bob Perry contributed two singles, two doubles and a triple and Robinson found a single and two sacker. The Twins totalled twelve hits. The score:

Co. C. 103 Inf., Maine National Guard

Co. C. leaves for Fort Ethan Allen, Vermont, Friday morning, July 25th on the 9:20 from Norway. The Regiment mobilizes in Portland during that day and leaves Portland at 7:30 P. M., arriving in Fort Ethan Allen at 6 o'clock the following morning. Everyone lives in canvas this year which will be a great treat after living in barracks at Devens the past three years.

Port Ethan Allen is situated on the shores of Lake Champlain and ideal camping conditions it would be hard to equal.

For the past three years the Maine Regiment has been under intense training each year at Muster, and has reached such high state of efficiency that the Commanding General feels that the boys deserve a rest, so this year Muster is to be in the form of recreation and athletics for a large extent. There will be a short drill period every morning, which will include calisthenics. The rest of the day will be given over to organized athletics.

Any young man in this community who misses the opportunity to go to Fort Ethan Allen this year, loses the chance to see one of the most historical spots of the Revolutionary War, as well as missing a holiday.

Quite a few new enlistments have been secured during the past week and it is hoped that many more young men will take advantage of this trip. Everyone who goes receives regular Army pay for the fifteen days that they are away from home, and of course receives all of the equipment, travel, allowances and subsistence which is due every soldier in the regular army. The Army will be open all night Thursday, July 24th, to receive the enlistment of any young men who decides to go at the last minute.

Any man who enlists Thursday evening will leave the army Friday morning fully equipped.

The Company is rapidly assuming a splendid appearance under the guidance of 1st Lieut. Lester L. Witham who recently returned from Fort Benning, Georgia, after completing a three months course in the most modern methods of military science. He is ably assisted in this work by the staff of Sergeant Carlisle Lebroke, Sergeant Howard Palmer, Ernest Descoeaux and Floyd Harlow.

Sergeant Lebroke is Administrative Sergeant, while Sergeant Palmer specializes in bayonet fighting, Sergeant Descoeaux in order and Sergeant Harlow in close order. Following is a complete roster of the Company.

1st Lieut.—Lester L. Witham.
2nd Lieut.—Albert Thompson.
Sergeant—Howard Palmer, Ernest Descoeaux, Floyd Harlow, Philip Prince, Arthur Hunt, Corporals—Alonso Jackson, Stuart Judkins, Joseph Crocker, Robert Hunt, Arthur Olmstead.

Privates—Theodore Ayer, Norman Annis, Francis Noble, Stanley Berber, Francis Prosser, Earl Pratt, Royce Farnam, Adolph Guilford, Francis Gammon, Edwin Gammon, Bruce Hosmer, Francis Haskell, Berley Hanley, Manfred Palmer, Henry Johnson, Fred Perry, Eugene Robinson, Wendell Stanley, Donald Kimball, Harland Tompkins, Walter Mattson, Frederick Walters, Daniel Mattor.

It will be seen that the above list is all native born Americans, making the Company stand 100% for Americanism. Every man is working to make this the best Company in the State and also one that will be a real asset to the community as well as to the Nation.

Neighborhood Advice

Freely Given by a Norway Citizen.

When one has suffered tortures from a bad back and found relief from the aches and pains, that person's advice is of untold value to friends and neighbors. The following neighborhood advice comes from a Norway resident.

M. W. Sampson, Prop. boat transportation business, 19 Bridge St., Norway, says: "A cold settled on my kidneys and brought on attacks of backache. I was lame and unable to move any way, the pain in my back was so severe. My kidneys didn't act right and I had dizzy spells. A friend who had used Doan's Pills with good results advised me to try them, so I went to Stone's Drug Store and got three boxes. After I had finished taking them, the trouble left and I have been free from kidney disorder since."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Sampson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

STORY OF BY-GONE DAYS

Twenty-Six Years Ago

Pierce forest fires near Moriah brook up Wild River not far from Hastings, caused much loss of standing timber. Eugene F. Bartlett caught a 3 1/2 pound redspot and an eel 30 inches long. Both were taken from Lake Pennesseewassee.

The East Waterford band gave a concert at Wm. P. Knightly's to a large gathering of neighbors and visitors from Alliston and Brookline, Mass.

Several boys caught smoking in C. B. Cummings lumber yard were taken before Judge Herriage and received a fatherly talk.

Postage stamps used in place of revenue stamps on checks is confusing. The public is informed that letter postage cannot take the place of revenue stamps.

The McIntire of East Waterford drove a herd of eighty-five sheep and lambs through the village. This was their fourth drive for the season.

A lively thunder shower passed over North Waterford Thursday. Lightning struck E. B. Hersey's barn killing one horse and injuring others. Barn of Carlton H. Walker in Fryeburg was also struck by lightning and burned.

RADIO-OR LIGHTING WIRES

The baffling question as to who is to pay for radio broadcasting is being solved in Staten Island, N. Y., where for the last 18 months an engineering staff has been developing the "wired radio" inventions of Major General George O. Squier. Apparatus has already been perfected by which two different radio programs can be transmitted over the lighted wires from the Staten Island generating station, and within a short time equipment for transmitting three programs will be completed. Tentative plans for Wired Radio, Inc., a North American Co. subsidiary which is doing the development work, call for the eventual establishment of a nation-wide "wired radio" system in New York, Chicago, and Pacific Coast city which will be sent over trunk wires to central generating stations in all parts of the country. From the central stations these national programs (supplied by local programs) will be transmitted to subscribers via the lighted lines. Each subscriber will be provided, at a monthly rental of \$2, with a small tuning device that is plugged into any convenient lamp socket. Because a large percentage of the monthly rental receipts can be devoted to paying for talent, the expectations are that wired radio programs will be of an exceptionally high quality.

"I do not believe anyone has been bold enough to suggest that the final solution of the road problem is the dirt road properly graded and taken care of. There is no objection to any road; the bond is paid. The good dirt road is the best in the world, except during the few days when the rain falls. Let motorists lay up during wet weather: better that than bankruptcy for the country."—E. W. Howe.

SPECIAL TO THE ADVERTISER

Playing the sort of game which helps them keep well and strong, more than 42,000 boys and girls in Maine schools qualified during the past school years as "Modern Health Crusaders" according to a report issued by the Health Crusade Section of the Maine Public Health Association. Each of these young "Crusaders" earned various ranks or titles such as "Squire," "Knight," and "Knight Banneret" by performing daily health "chores" including the following:

"I washed my hands before each meal today."

"I brushed my teeth thoroughly."

"I tried to eat only wholesome food including fruits and vegetables."

"I drank three glasses of water but no tea or coffee."

"I carried a handkerchief and used it to protect others if I coughed or sneezed."

"I tried to sit and stand straight."

"I was in bed eleven hours last night with my room well ventilated."

"I cleaned my fingernails today."

"I took a bath at least twice this week."

Aroostook County leads the state with the largest enrollment of Crusaders, more than 7,000 youngsters in the great potato county qualified. Cumberland County is second and 2,300 Crusaders are enrolled in Portland alone. Every county in the state is represented in the list. During the year, Miss Abbie Buckfield representative of the Maine Public Health Association for the Crusade work, personally talked to more than 60,000 boys and girls on various health subjects. In this work she visited public, parochial, Indian, Quaker and Shaker schools as well as schools maintained by the state in remote plantations.

Reports from hundreds of Maine school teachers on the value of the Crusade show that thousands of Maine boys and girls in all sections of the state have become hands and bodies are cleaner, eyes brighter and because of their improved health they have become more proficient in their school work. The annual sale of Health Christmas Seals, helps to finance this work.

INDUSTRIAL SUPREMACY

In a recent publication of one of our large City Dailies was listed by a well known brokerage house nineteen stocks, of which eleven were industrials, five public utilities, and three railroads.

With the exception of one of the railroads, they were all Maine securities. The average price quoted on the industrials was \$119.36; the public utilities \$71.20, and the railroads \$61.67.

These figures taken as a barometer indicate the high standards of Maine Industrials and their supremacy over other classes.

The Sawyer Boot & Shoe Company, one of the old Maine landmarks, is offering the balance of its 7 per cent. Preferred Stock at par with participations to net 8 per cent.

There is no mortgage or bonded indebtedness that precedes the Preferred Stock, and never can be without the consent of 75 per cent. of the Preferred Stockholders. The usual qualities and yield of this stock are attracting conservative investors, looking for fair returns on their investment.

Corn Doctor

This is a gent's furnishing store. We display no sign as a corn doctor. Although we will try and fit anyone with a pair of shoes that will bring relief.

We forwarded another pair of shoes to our customer by parcel post; this time we sent a pair of W. L. Douglass Vici Kid, Goodyear welt, Low heel with a Wing Foot rubber top-lift and a rock oak sole with full tread, although not a cushion sole shoe.

Our instructions were to return the shoes if not what was wanted. Our customer refuses to return the shoes although they are not just what was wanted.

A corn on the bottom of the foot is not a very good friend although a trial with the new Douglass shoe gave great relief, in fact, more comfort than has been enjoyed for several weeks. Therefore if you are troubled with tender feet come in and we will see what we can do with a pair of shoes for your relief.

The Question of Water for Your Country Home

In planning your country home nothing is quite so important as the question of water.

Formerly it was considered sufficient for the farm or country home to have a hand pump or windmill. But now the hand pump and windmill are as obsolete as the old unsanitary outhouse or chemical toilet.

DURO Water Systems

"Just Like City Water Service"

made in many sizes and styles, enable any home anywhere, to have running water under pressure, all over the house, just like city water service.

Duro systems can be used with deep wells, shallow wells, cisterns or springs. They may be driven from high line current, farm light plant or gasoline engine.

A Duro system is a sound investment—it lessens labor and promotes health and cleanliness. It replaces drudgery and despair with comfort and happiness. And it is also a permanent improvement that adds to the value of your property.

Have your architect or builder ask for an estimate. Specify Duro.

Is Your Home Protected?

This matter of lightning rods should be a personal one with you. Is your home protected? If not, can you afford to take the chances of its destruction? You may have been spared up to this time, but give it a moment's thought and see whether it has not been through your good fortune rather than through your good management.

You have no assurance that lightning will continue to spare you. It has visited your neighbors. Your turn may come next. If it should visit your home, it means certain destruction of property. It may mean sudden death to you or some member of your family.

You cannot shift the responsibility. It is a matter for you to decide. Face the issue squarely, and ask yourself the question whether you are playing the part of the prudent man in neglecting to guard your home and dear ones from the lightning stroke which may come at any time.

You have the highest assurances that can be given that the Dodd System of lightning rods does give protection.

It is a reasonable system. The demonstrations given put its effectiveness beyond question.

The position that the insurance companies have taken in the matter should have great weight with you.

Their interests are to preserve property. They have no personal interests in Dodd & Struthers.

Your interests are the same. You want to preserve your property—and your life and the lives of your family.

The insurance companies are encouraging you to protect your property.

But they cannot force you to act. It is a question for you and a question of NOW.

After awhile may be too late.

Will you answer the question to your own best interests?

When a bill comes in, mail a check. It is better than cash because it is safer, because it comes back to you as a record and receipt, and because no change is needed. Also a checking account enables you to keep your cash in a much safer place than your home or pocket—this bank for example.

Cuts Better Lasts Longer

You will appreciate the John Deere Mower the moment you see it in action. You will notice particularly its simplicity, its great cutting power and the ease with which it is handled. These advantages, combined with the extra years of service it gives, makes the John Deere a mighty profitable mower investment.

JOHN DEERE MOWER The Mower with the Balanced Gears

The driving gears on the John Deere are balanced—one set offsets the thrust of the other set. This eliminates side wear and strain. This mower transmits maximum power to the high grade carefully-fitted knife—that's why the John Deere does a better job of cutting and pulls lighter.

Another feature—if after years of use, lag develops in the cutter bar, this can be taken out—the bar is aligned by a simple eccentric adjustment. The John Deere handles easily. The bar can be raised high with the foot lever to pass over ordinary obstructions. With the hand lever an extremely high lift can be secured quickly and easily. It's no job to keep the John Deere in good running order. All parts are easily replaced; adjustments easily made—its simplicity is a real feature.

Be sure to see this mower before you buy.
It's the best mower we have ever seen.
